Comments to	was on site at Barefoot Lakes.	Specialist State	
Customer	Solitude inspected both lakes for erosion control, aeration, and algae/vegetation. No algae or vegetation was observed at the time of inspection. Solitude applied fifty six gallons of pond dye as a preventative measure to reduce the sunlight penetrating the water. Twenty-four gallons of Lochness black dye were applied at Barefoot West. Thirty two gallons of Lochness black dye were applied at Barefoot East. Erosion was observed at East Barefoot Lake. Solitude is scheduled for erosion restoration in October. Solitude Observed one dead fish around the shoreline of Barefoot East. Solitude gathered the remains. Solitude observed 12 diffusers working at Barefoot East. Solitude also inspected the air filters for each compressor. They are all still in good condition. Solitude found old screws around the boat ramp at Barefoot East. Solitude requests that the area be repaired, as the old screws are a hazard for the boat and truck tires. Solitude is happy to answer any questions regarding this report. I have	License Number
